EMANCIPATION DAY TOMORROW

Thousands of Colored People Will Come to Paducah.

No Disorder Has Ever Marred Demonstration and None Is Anticipated This Year.

ARRANGEMENTS FOR CROWD

Tomorrow is Emancipation Day and Paducah will be the Mecca of the colored population of West Tennessee and Western Kentucky. In spite of the malicious warnings sent out of the city that the race feeling is running high in Paducah the usual large crowd is expected, and no trouble is anticipated by the police.

In years past 10,000 to 12,000 colored people have assembled in Paducah and peacefully celebrated their day. Last year not a disorderly episode was reported to the police, and this is a record not every excursion can boast of.

Every precaution is being taken by the local authorities and extra policemen will be on duty in case of emergency, arising from an unexpected clash.

Police Precautions.

"Look out for raised hell men."

The above is the warning sent out from police headquarters by Chief of Police James Collins this morning. The Chief thinks that the merchants will profit by taking notice.

"We know that there are four negroes here now who are trying to work the raised hell racket, but we have not the means to detect them and effect arrest," the chief said. "Every August 5 they show up, and last year two were arrested and are now in the government prison."

Chief Collins continued: "I have secured nine extra patrolmen and I will secure more if I think them necessary."

Chief Collins has appointed the following extra police to do duty tomorrow:

G. H. Toler, J. A. Prince, W. M. Smith, Hugh Miller, W. E. Baker, Mann Clark, L. L. Jones, Al Townsend, William Byrd. Nearly all are experienced policemen.

The county also intends to take a hand in the matter of keeping order, Magistrate Charles Emery said:

"There will be from 20 to 30 extra officers on the grounds at Rowlandtown and Wallace park to see that no malt tonic or intoxicants are sold. We have decided that this is the best way to preserve order and for every bottle of malt tonic sold we will secure a warrant."

Holiday Excursions.

This morning a string of ten coaches were sent out of Paducah for the south and east to accommodate the extra travel tomorrow when the colored people come to Paducah to celebrate the eighth. Officials of the Illinois Central here estimated that 100 coaches will be used in bringing the visitors to the city on the Louisville and Memphis divisions alone. Special agents will be employed extra from the regular force and the host of order will be maintained on the trains.

The "Ate or August" will be felt on the river. The very heart of river business will be paralyzed when the colored hands about the coal docks take the day off. Some of the boats might secure hands to run the boats but without the usual coal supply, river traffic for many of the boats will be impossible.

The tie hands will quit to a man. All the tow-boats and some of the packets will take on an extra supply of coal today so as not to be caught empty tomorrow. To add to their misfortunes, the hands on the boats may celebrate so heartily that another day will have to be taken off to recuperate from their day of recreation."

Already he who has his hand upon the pulse of the watermelon market may feel it tightening. Watermelons will come in by the prairie schooner load tomorrow. The street cars will be abandoned by the white passengers who will take more exercise Wednesday than they have taken since last August.

There are few specially arranged river excursions scheduled for tomorrow. The Joe Fowler will bring an excursion from way points on the Ohio river and the John Hopkins will carry the crowd back Thursday. The Royal and Cowling will handle large crowds. There are no excursions to be run out of here.

By the consent of the people of Paducah, The Sun has the largest circulation in the city and county. The average for July was 4,132 a day.

DEATH FOLLOWED CLOSING OF BANK

Cashier is Missing and Warrant is Out.

LOVE YOUR COUNTRY.

John D. Rockefeller Under Cloud Takes to Children.

Cleveland, O., Aug. 7.—A remarkable speech was delivered yesterday by John D. Rockefeller upon his first visit this year to the Sunday school of the Euclid Avenue Baptist church, of which he is superintendent. The billionnaire, just returned from his trip abroad to find the federal government interesting itself in the prosecution of the Standard Oil company, declared that everyone should love his country with a great, good love, and that he should love its institutions because they made the country what it is.

CABINET

WILL BE REORGANIZED WITH REFORM MINISTRY.

Gazette Says Car Will Attempt to Appease Liberals—Shouting the Rebels.

St. Petersburg, August 7.—The Gazette announces today, it is informed, the change in the cabinet will take place Thursday. The czar's program now is, if the Gazette's information is correct, to form a reform ministry, evidently in the hope of appeasing the people and end the revolutionary struggle.

The strike situation is unchanged. All is quiet except that meetings of workingmen are being dispersed as rapidly as discovered. Work is resumed in many factories.

Authorities continue to arrest men concerned in agitating the general strike. A great many of the strike leaders have been arrested.

Plains to Be Tried.

Helsingfors, August 7.—The captured Finnish revolutionists seized during the recent uprising were turned over to the Finnish authorities to be tried by law and punished by imprisonment. Shooting of men condemned for participating in the mutiny of Sveaborg continues.

INTO HUNDREDS

VICTIMS OF HEAT IN NEW YORK WILL RUN.

Mild Coolness With Lessening Humidity Brings Relief to the Millions.

New York, August 7.—Mild coolness came today to relieve the millions suffering from heat the past few days. At 10 o'clock the temperature registered 82, higher than at the same time yesterday, but the humidity is lower. Five deaths are reported from heat this morning, making total of 21. Reports are incomplete, including only those persons who have succumbed suddenly. The real list will run into the hundreds.

RIVER MAY RETIRE A SENATOR.

Frost of the Missouri Likely to Make Gamble a Nebraskan.

St. Paul, Aug. 7.—If the Missouri river permits in following an old bed of the stream, which it is now threatening to do, Nebraska may find herself with three United States senators, and Gamble of South Dakota may be retired by becoming a resident of Nebraska instead of South Dakota. The river is cutting into an old channel east of Yankton, S.D., and if the water succeeds in getting into the old bed Yankton will be thrown on the west side of the river, and therefore into Nebraska. Senator Gamble is a resident of Yankton.

MUCH IMPROVED

In Condition of Capt. T. J. Moore of Hospital.

Capt. T. J. Moore the popular detective, who is confined in Riverside hospital as the result of an operation for appendicitis, is reported much better today. He passed a restful night and today is thought to be greatly improved.

Fourteen Ice Men Indicted.

Philadelphia, Aug. 7.—The grand jury indicted fourteen members of the local ice trust for forming a combination to corner the ice market.

One Man Expires of Heart Failure and Another Commits Suicide at News.

CHICAGO INSTITUTION FAILS.

Chicago, Ill., Aug. 7.—With a deficit estimated close to a million dollars and with the whereabouts of two of its highest officials unknown to the authorities the Milwaukee Avenue State bank, one of the largest outgoing banks in the city, was closed today by State Bank Examiner Jones.

In the excitement following J. G. Viger, an official of the Royal League, who had on deposit in the bank funds of that organization, fell dead of heart failure, and Henry Kopeke a small grocer, who had his life's savings in the bank, committed suicide.

Riotous scenes attended the announcement of the failure, and a large force of police struggled all day to keep the excited crowd of depositors nearly all of them foreigners and many of them women, from rushing through the doors of the institution.

The fact that the bank was on the verge of failure was first revealed by President Paul C. Stensland one of the absent officials. A letter to his son Theodore, who is vice president, written from St. Paul, and received Saturday, started the investigation which brought about the suspension.

Another sensational feature was the disappearance of Cashier Henry W. Herling, and the issuing of a warrant for his arrest on the charge of embezzlement.

Chicago, August 7.—No definite trace has been found of President Stensland, of the Milwaukee Avenue State bank. Cashier Herling, for whom the warrant was issued, is believed to be in Canada. An angry crowd stormed the bank this morning and a big police detail rushed to the bank.

John C. Fetze, a capitalist, today was appointed receiver of the Milwaukee Avenue State bank.

Another startling feature was the issuance of a warrant for the arrest of Paul O. Stensland, president of the bank. He is charged with accepting deposits with the knowledge that his bank was insolvent.

HOW NEW YORK

Spend Hot Sunday in Effort to Preserve Life.

New York, Aug. 7.—New York endured one of the hottest days of the summer Sunday, with not as many prostrations as expected, owing to the fact that it was a day of rest, and the hundreds of thousands who crowd the business districts and sweatshop on week days did not have to work. It is estimated that more than a million persons went out of town, and as a result every seaside resort within 100 miles of New York was jammed with men and women in a frantic effort to cool off. Coney Island had more than 500,000 visitors, and at Brighton, Rockaway and other nearby places bathing suits were in demand at a dollar an hour for rental.

To Regain Church Land and Royalty

Terre Haute, Ind., August 7. S. S. Yanaway, who gave the land for a church near Casey, Ill., will seek to have the deed set aside because he had as a condition of his gift that the land should be used for church purposes only, and the trustees are receiving a big revenue from royalties on oil wells on the land. Yanaway says the royalties should revert to him. The trustees say the property is not less devoted to the purposes for which the land was given.

MUCH IMPROVED

In Condition of Capt. T. J. Moore of Hospital.

Capt. T. J. Moore the popular detective, who is confined in Riverside hospital as the result of an operation for appendicitis, is reported much better today. He passed a restful night and today is thought to be greatly improved.

Fourteen Ice Men Indicted.

Philadelphia, Aug. 7.—The grand jury indicted fourteen members of the local ice trust for forming a combination to corner the ice market.

Partly cloudy and continued warm with local showers tonight and Wednesday. The highest temperature reached yesterday was 81 and the lowest today was 71.

JUDGE PURYEAR WILL MAKE RACE

Announces Candidacy for the Police Bench.

Democratic Committee Calls Primary for September 20—Platform Not Adopted.

CITY OFFICES TO BE FILLED

Judge B. H. Puryear of the police court, who was appointed by Mayor Yeiser to fill out the unexpired term of the late Judge Sanders, will be a candidate for the nomination before the Democratic primary, called for September 20.

"I will make the race," said Judge Puryear, simply, when he was asked about it this morning.

"I am not a politician," he continued, "and I don't know how to play that sort of game, but I will continue if elected, to act just as I have since my appointment. If the voters of Paducah like the way I have conducted myself on the bench, I will be glad to receive their support. If they disagree with my methods I will abide the consequences. I only know how to bid for votes by performing my duty as I see it. I believe in making the law respected, and in that I have tried to support the policemen in their efforts at its enforcement. The only way I can see to make a certain class respect the law is to make them fear it. I try to get at the Justice of a case and if a prisoner can show me where he is excusable, even after I have passed sentence, I am willing to do the right thing for him."

"I am just going to stand on my record."

The Sub-Committee.

Judge W. A. Berry this morning announced his appointment of the sub-committee to arrange for the primary and the committee was instructed to "get together" at once and arrange for the primary. The appointment follows: James M. Lang, Thomas Harrison, Gus Rogers and Mann W. Clark.

Primary August 20.

A primary will be held September 20 by Paducah Democrats for the purpose of selecting candidates for the offices of aldermen, councilmen, school trustees and city Judge. This was decided last night at a meeting of the city Democratic committee. The date falls on Thursday and preparations will begin at once for the primary.

Those present at the meeting were Chairman W. A. Berry, J. M. Lang, M. W. Clark, Gus Rogers, J. W. Bass, T. B. Harrison, Al Foreman, James Lally, T. B. Orr and Miles Stewart.

A resolution was offered by James M. Lang, calling a primary for September 20. It provided for the appointment of a sub-committee to be named later by the chairman to arrange for the primary, and that candidates for city Judge be not assessed over \$10 each and all others not over \$2. It carried unanimously.

There were a few short speeches. County Judge Lightfoot and City Prosecuting Attorney Tom Harrison speaking against adopting any current local issues and Senator J. Wheeler Campbell speaking in favor of it. No action was taken towards this matter and the meeting adjourned.

CHINATOWN

IS SHIFTING NORTHWARD IN NEW YORK CITY.

Business That City Would Buy Buildings and Raising Rents Cause Exodus.

New York, Aug. 7.—Demands for wiping out Chinatown are succeeded by a report that the district is depopulating itself. Raising of rents consequent on the understanding that the city might buy the buildings produced the exodus. The population of Chinatown is declared to be reduced from 15,000 to about 6,000, going further north in the city.

Divine Sarah's Short Coming.

Paris, Aug. 7.—Her financial carelessness, which according to French standards, constitutes the greatest possible stain on a person's character, turns out to be the reason why the chancery of the Legion of Honor has again refused the cross to Sarah Bernhardt. The decision is permanent. Bernhardt has never paid the slightest attention to her obligations to the city of Paris from which she rents her theater. It used to pay into the public treasury several hundred thousand francs annually. From a business point of view she has long been insolvent.

Scraping Over Tripoli.

Paris, Aug. 7.—Strained relations have arisen between France and Turkey over the frontier of Tripoli adjacent to the French Sahara. The Turkish troops recently occupied the disputed territory, on the ground of Turkey's suzerainty over Tripoli. France's protest was ineffective. The Turkish ambassador here today received instructions to maintain the Turkish claims. The officials here do not expect the affair to assume serious dimensions.

LITHOGRAPHERS

Strike and Loss to Employers Will Be Thousands.

New York, Aug. 7.—Lithograph work and printing representing thousands of dollars is tied up in this city as a consequence of the strike of lithographers and assistants. At this time of the year much calendar work is done for delivery in the fall, and unless the orders now in hand can be promptly filled, the loss to the employers will, it is said, be considerable. The president of the largest lithographic concern in New York last night estimated that the number of strikers in this city at 8,000, and the total throughout the country at 20,000, or about two-thirds of the whole number of men engaged as lithographers or directly associated with this branch of the business.

Policeman Resigns From District 13.

Terre Haute, Ind., August 7.—Policeman Brown, a negro, long a member of the police force, resigned today because he was assigned to district No. 13.

And the Indians did it again. Big Freddie Miller had steam "to let" yesterday, and walked away from the Betties at Wallace park. There was about a handful of spectators to witness one of the fastest and neatest games ever seen on the Paducah ball field, but those who remained away are the losers.

Allen was in the box for the Betties and was also effective, the Indiana securing but one hit more than the visitors. "Grandfather" Belt was receiving which accounts for the stolen bases credited to the Indians.

The game started off as though the visitors might win. Copeland's measly single barely missed Cooper's hand and Copeland was placed on second by a bunt and made home on a double.

The Indians tied the score by a nice play in the fourth inning, and in next inning scored twice again, due to a dull play on the part of Allen and Hackett.

Miller kept in good form and there was "nothing doing" for Belt and his bunch of beefers after the first inning.

The team worked like a clock yesterday.

The Indians are in good form once again and are "going some."

Here's hoping we take today's double-header.

"Texas" Myra will be in a Cairo uniform today and will cover first base. "Texas" will be remembered as having played with Hopkinsville two years ago and is nothing of a slouch in the game.—Cairo Bulletin.

Brable and Wright will do the throwing for the Indians today in the double header.

Platt is back and the Kitty league is trembling—that is all the teams in it except Paducah, because the Indians do not have to go against the "wilky" one. Perry Green in the Vincennes Capital says:

"Wiley" Platt is back with Paducah and pitching the class of ball that made him the best pitcher in the Kitty league last season. The Champs are figuring on defeating him and the battles will be worth going miles to see. It will likely be Platt against Perdue here on Labor Day."

Well, as they are going to put the Rub Hub Dub Perdue in to try to outdo Platt. Any way Platt is recognized as the King Bee of all pitchers in the Kitty, and if Perdue beats him it will be Perdue, eight men and an umpire. Platt only has to get in position and let go, then lay his glove down and put his sweater on. Yes, it will be fun when the big southpaw gets to Vincennes.

ANNUAL REPORTS TO SCHOOL BOARD

Will be Made by Superintendent and Principals.

Trustees Meet Tonight and Will Take Up Matter of Electing English Teacher.

BUILDINGS READY TO OPEN.

Tonight the board of education will meet in regular session but will have little routine business to transact. There will be other business which has been deferred, and the greatest interest is centered in this.

An English, music, science teacher, assistant principal and two departmental teachers are to be elected with all colored teachers except one principal. It is about the white positions that interest is centered.

The board stands divided in the selection of an English teacher and if the deadlock is broken, it will mean an easy matter to fill the other places. There is little talk centered about the probabilities of breaking the deadlock. The matter created a great deal of comment the first meeting but has dropped out of sight in the past month.

Superintendent Leigh will have an annual report to make, and with it will come recommendations from principals. He is not at liberty to give out what the recommendations are, but did state that if the board acts favorably it will mean a great deal to the schools, all suggestions being for the betterment of the system.

Fred Hoyer, superintendent of buildings, also will file report, showing the buildings to be ready for service except in the heating system. There remains some little work to be done by the furnace.

Newspaper Announcement.
A special civil service examination for clerks and carriers in the Paducah Ky., postoffice will be held in that city on August 29, 1906, at 9 o'clock a.m., in order that an appointment may be made in the office and future appointments as occasion may require.

Applicants must be between the ages of eighteen and forty-five years and citizens of the United States. Male applicants must measure not less than 5 feet 4 inches in their stocking feet and weigh not less than 125 pounds in ordinary clothing. Medical certificates will not be required of applicants, but those who may receive appointments will be called upon to furnish the same before entering upon duty.

Lists of those who pass examinations are no longer posted, but information as to their standing on the registers can be obtained upon application to the local secretary.

For the required application form and a pamphlet of general information containing specimen examination questions, apply to Mr. Fred H. Tipton, secretary board of examiners, at the post-office, or to C. W. Ross district secretary.

We ship pianos and organs direct from factory of our own makes and saves you commission. D. H. Baldwin & Company, 520 Broadway.

CITY PARK BONDS WILL BE VOTED ON

Lower Board Passes Measure Providing for Election.

Franchise Ordinance for Nineteenth Street Line Favorably Acted On.

ROUTINE BUSINESS MATTERS.

The bulk of business before the Board of councilmen last night was routine but several important matters were acted on. The board decided to let the people vote on a \$100,000 bond issue for parks, allowed several coffee house leases and turned down two: favorably talked of appropriating \$200 towards a continuation of open air free hand concerts; passed an ordinance for a franchise for extending street car lines on Nineteenth street to the Mayfield road; passed several street improvement ordinances and gave Chief of Police James Collins unrestricted power to engage extra policemen to take care of the crowds here on Aug. 18.

All members were present, The minutes of the last regular and called meetings were adopted.

Mayor Yeler presented a communication from a committee saying that an agreement had been reached with manufacturers relative to electrical street lights. The report was referred.

A petition from property owners on Harrison, from Eighth to Thirteenth streets, for sidewalks, curb and gutter, was referred.

Mayor Yeler reported that Eleventh street between Madison and Monroe streets, is in bad condition and his report was referred for reconditioning.

Notice of a suit filed by Martin Lander, making the city a party to defense, was referred to the solicitor.

Mayor Yeler reported the resignation of Councilman Ruey Dippie and his appointment of Mr. Lou Grandoll. Mayor Yeler also read a recommendation to pass the matter of a bond issue for city parks before the people also that a competent engineer be employed to assist Engineer Washington.

Mayor Yeler read a proposition from W. F. Bradshaw to delineate property necessary to build sidewalks on West Broadway. It was the same mentioned to the aldermen, and Mr. Bradshaw wanted some few concessions. The matter was referred.

City Engineer L. A. Washington stated he had advertised for bids on the Island creek bridge and received many answers. The report was filed.

Courtesy Judge R. T. Lightfoot, representing the Paducah Military band, asked for a small appropriation for the continuation of a mile street band concerts over the city. He stated already about \$150 had been secured by private subscriptions, but that this is not enough. Judge Lightfoot stated that the concerts are source of great pleasure to the public. The amount asked was \$200. The matter was referred.

The report of the auditor and treasurer for July, showing a balance of \$105,271.46 at the close of the month, was filed.

The finance committee's report of accounts, salaries, etc., totaling \$25,422.47 was filed.

On motion it was ordered that the collector investigate costs in cases in court against the city; also to carefully pursue the collection of back taxes.

The auditor and treasurer were ordered to turn over the 1905 back tax books to Collector James Campbell, Jr., the back tax collector.

Ordinances Acted On.

The following ordinances were presented:

Ordinance for the sale of a franchise for the extension of street car lines from Seventeenth street to Nineteenth street on Broadway, thence to the Mayfield road on Nineteenth street. The car company agreed to pay for part of a fill and also to fill in low ground. The ordinance was given first reading. The collector is to draw a contract with the Traction company agreeing to pay for the enlargement of the fill, etc.

Ordinance for improving Twenty-third street, second passage.

Ordinance for improving Jarrett street, from Powell street to Bridge street, first reading.

Ordinance for improving Twenty-second street, second reading.

Two ordinances for improving Second street, for a block at the time, second passage.

Ordinance for improving Hayes avenue from Second street to Bridge street, second passage.

Ordinance for sidewalks on Washington street from Second to Third streets second passage.

Ordinance for improving First street from Broadway to Washington street, second reading.

Ordinance prohibiting dry wells within the sewerage district, the fine for a violation being from \$5 to \$25, first reading.

A petition from property owners on

Clay street between Eighth street and Harrison boulevard, for sidewalks was referred.

Attorney W. F. Bradshaw, Sr., spoke relative to the proposition he made to delineate property on West Broadway. He stated that he had been misrepresented and placed in a false light as obstructing the improvement. He said he is the "only one who has been willing to give anything at all" to assure the improvement. Mr. Bradshaw showed that he had given property, whereas others had been paid for theirs.

The matter having been referred, no action was taken.

Water Main Extensions.

A petition for the extension of water mains on North Eighth street was favorably acted on.

A petition for extension of water mains on Clay street from Seventeenth to Nineteenth street was favorably acted on.

A petition for sidewalks on Farley street in Mechanicsburg to Clements street, was favorably acted on.

Chairman Oehlachlaeger, of the fire and police committee, moved to permanent Chief of Police James Collins just as many extra policemen as he deemed necessary. Councilman Hill wanted to fix the maximum at 15, but Councilmen Oehlachlaeger and Williamson, with President McRae, did not believe the maximum should be fixed.

The amendment of Councilman Hill to the maximum was lost, and the original motion carried.

The monthly report of the chief of police for July was received and filed. It showed a total of \$920.65 in fines and costs collected during the month.

Saloon License Applications.

An application from John Whitlow to keep a saloon at 300 South Ninth street was favorably acted on.

An application for a license from J. R. Morris, at 109 Broadway, was favorably acted on.

T. Overstreet, at 900 North Ninth street, wanted a license. J. D. Overstreet formerly kept there and now on account of a Sunday violation his license was revoked. It was stated that "T." Overstreet is J. D. Overstreet's wife. Councilman Duvall said a protest was filed before the committee against this saloon. The objection was a crowd of loungers about the place. Councilman Kolb favored giving the woman a show. The application was voted down.

J. M. Whittaker asked for a license for the old Bud Quarels saloon at the Union station hotel. Mr. Whittaker showed that J. M. Quarles has no interest in the place. The license was granted unanimously.

Theodore Peters asked for a license at 1040 "B" Broadway. "B" Broadway developed to be in the rear of 1040 Broadway, facing an alley between Broadway and Kentucky avenue. The license was lost.

It Padgett & company asked for a license at 1533 Broad street. The license was granted.

The board referred the application for fees deposited by applicants for coffee house license.

The committee reported that the adjustment of the street car company, charging full fares to school children had been left to the mayor, as also was the matter of compelling the railroads to place watchmen at street crossings at night.

A contract between Ghent & Elliott and the board of health to enclose for the city garbage dump was ratified. The salary is \$30 a month.

Application for refunding milk dealers and hawkers' licenses were referred. It was stated that the city has no right to refund.

Several deeds and transfers to lots in Oak Grove were ratified.

A report from Milk and Meat Inspector Farley was received and filed. He reported conditions gradually bettering.

Councilman Davall stated at Seventh and Boyd streets telephone poles have been left to obstruct gutters. The matter was referred.

Councilman Williamson moved to appoint Lycurgus Rice, cow catcher for one year beginning August 1. The board had instructed the mayor to continue the inspector as long as he deemed necessary, and on the assurance from Mayor Yeler that he would look after the matter the motion was withdrawn.

Chairman Kolb, of the public improvement committee, moved to allow the park commissioners \$1,000 to fix up Lang park. Councilman Barnett did not favor the allowance. He wanted to wait for the bond issue. The motion was adopted. Councilmen Bennett, Davall, Morris and Williamson voting nay.

A motion to submit the privilege of voting for a \$100,000 bond issue for parks to the people in November, was adopted.

A motion for curb and gutters on

Sixth street between Tennessee and Norton streets, was adopted.

On motion the board adjourned.

NEWS OF KENTUCKY

Hillbrow Despondent.

Louisville, Aug. 7.—William Duggins attempted to commit suicide by shooting himself in the breast with a 38-caliber revolver at 7 o'clock last night in his bedroom on the second floor of his residence, on the north side of Madison street, near Thirteenth. Duggins, who is only about twenty-one years old, returned home about dusk, after a day's outing, and a quarrel followed with his wife. The pair have only been married about six months, and Mrs. Duggins thought he should have been home earlier. Duggins seemed much depressed. Without another word he went to the bureau drawer and securing his revolver shot himself in the left breast.

Chance for Republicans.

Pineville, Ky., Aug. 7.—Since the adjournment of the Democratic convention on Thursday there has been much speculation as to who the Republicans will nominate when their convention meets on August 22. There is a great deal of dissatisfaction felt among the friends of the defeated candidates as the result of Congressman Hopkins' nomination, and the Republicans have strong hopes of electing a Republican this fall. No one has announced as a candidate yet, but the friends of John W. Langley who is now disengaged agent of the census department are urging him to become candidate.

Fierce Conflict in Whitley.

Corbin, Ky., Aug. 7.—About 7 p.m. last night a fight took place between Bob Ray and some unknown man who was with him and Charlie and Joe Mitchell, sons of Squire Mitchell, of Knox county. It seems that the difficulty began by the unknown man shooting a gun under the feet of Joe Mitchell. Charlie Mitchell then drew a knife and cut the Ray boy's head nearly off. Charlie Brownings, chief of police of Corbin, and his deputy, I. C. Bryant, went in hot pursuit of the boys, who were attempting to make good their escape into Knox county, overtaking them about a mile from town.

Took It Out on Lithograph.

Hawenville, Ky., Aug. 7. After taking a pistol and going at midnight to a neighbor's barn and unloading the contents at a lithograph of President Roosevelt, Edill House, one of Hancock county's most prominent young men, has been adjudged insane and taken to the Hopkinsville Insane Asylum. His insanity bears on only one point. He stated to a jury that President Roosevelt and one George Freeman have combined and have an electric machine which they apply to the top of his head and suck the brains and blood out of his head.

May Be Assailant.

Madisonville, Ky., Aug. 7. Officers have arrived in the city with John Cushingberry, a negro man, who is suspected of being the assailant of Miss Myrtle Fugate Friday morning of last week. He was captured at Antonio, Ky., this morning, and the young lady has been sent for to identify him. Should she believe him to be the right one, it is more than probable that precautions will have to be taken to prevent trouble. She is expected to reach here this afternoon.

JAPANESE SILK BILL.

Shortly to Be Passed by a Far-Seeing Government—Its Origin.

"The pleasant business of exporting Japanese silk may be denied to foreigners in future," says Charles Edward Russell in "Soldiers of the Common Good," in the August Everybody's.

"Silk is one of the greatest interests of Japan. Control of the silk guild is vested in the government. Much silk spinning and weaving is done in Japanese households. But no one may sell raw silk until it has been offered to the Silk Guild. That is law."

"Many foreign houses are engaged in exporting Japanese silk. In years gone by their profits have been exceedingly fair to look upon. Japan is pleasant for residence. The houses do well and their representatives were happy. But the Japanese government desired to have this agreeable business for the Japanese. So it drew a bill providing for government inspection (at the exporter's cost) of all silk intended for export. The exact operations of this bill are too intricate to explain here, but in a general way it would reveal to the government inspectors the secret of the foreign exporters' business. Some features of the bill seemed to bear heavily upon the small producer. An adverse agitation was begun and so managed that it secured the bill's defeat in the house. But no well-informed person seems to doubt that in some form it will come up again and will pass."

FINAL SALE IN OUR MILLINERY DEPARTMENT

AUGUST is our last month for cut prices in Millinery and we are now selling hats at prices that will astonish the most conservative buyers. You can now have a New Hat for comparatively nothing to what you paid in the spring. The one you bought then is probably shoddy looking or you are tired of it. Buy a better one now for less money.

A SPECIAL CHOICE FOR THOSE THAT COME FIRST

MANAGERS CAN EAT

One Who Saw No Dramatic Possibilities in "The Lion and Mouse."

One can readily credit the tale that when Daniel Frohman, the most scholarly of American managers, was asked to consider the drama, he waved the manuscript at the author, saying: "Do you call this thing a play?" Yet "The Lion and the Mouse" packed Mr. Frohman's theater for months, keeping its doors open long after every other dramatic play had yielded to the hot weather; and Mr. Frohman was glad to pay an enormous sum for the western rights. The weaknesses and absurdities are much more apparent in the reading than in the acting of the play. How a dramatist who can handle big scenes so effectively, with such real power, could be guilty of the faults that mar "The Lion and the Mouse" is beyond one's comprehension. The adroitness with which Charles Klein covers the weak places and his clever audacity in ignoring glaring inconsistencies that he could not explain if he tried, show that he

was conscious of the faults. He has measured very accurately the extent to which he can play upon the crudity of his audiences and that is one of the secrets of his popular success. —"The Players," Everybody's Magazine for August.

Notice to Contractors.

Bids will be received at the office of the city engineer, in the city of Paducah, Kentucky, up to 3 o'clock, August 25, 1906, for the construction of about seven (7) miles of combined sanitary and storm water sewers, in the city of Paducah, Kentucky.

Plans and specifications will be on file in the engineer's office, in the city of Paducah, Kentucky, after August 15, 1906. A certified check of \$1,000 must accompany each and every bid.

The city reserves the right to reject any and all bids.

Daily Thought.
"The things needed to be done which you can do is your duty."

What apparent paradoxes are produced by legal physiognomy. Two doctors in Graves county are involved in litigation, each suing the other for his "good will," and much animosity has been aroused over the matter. Each claims the other agreed to desist from practicing medicine within six miles of Dublin, Graves county, and there another odd question suggests itself. A physician, by reason of the responsibilities he has voluntarily assumed, owes a duty to humanity which he has no moral right to shift even under color of legal sanction. A physician should not be allowed to bind himself not to practice within a certain territory, when within its boundaries may dwell someone whose life can be saved only through the peculiar skill and understanding of the nature of the case possessed by that physician. However, in the Graves county affair no such phase of the situation is likely to be presented. If this suit drags the usual slow course through the courts without compromise, the injunction to prevent either doctor practicing around Dublin promises to degenerate into a meaningless formality.

The Russian general strike seems to be a failure, judging from potential results, and all because the Constitutional party hesitated to plunge the country into revolution. There is the conservative element of the empire showing itself in these bloody days. There are the people, if Nicholas only knew it. The revolutionaries do not hesitate to precipitate a reign of anarchy, and the reactionaries of the court party have jeopardized the stability of the government a hundred times to attain their ends. Russia's peril is bringing to the fore a conservative element that some day may save Russia from herself.

"The country was never so rich" just before the panic of 1857. The country has never been so rich as it is now. Say the St. Louis Post-Dispatch. That's so; and just before Cleveland was elected in 1892. The people of these United States are not going to elect any more panics.

Ex-Gov. Yates, of Illinois, won some golden meeds of praise for his oratorical efforts on the hustings; but Uncle Shelby Cullom stayed at home and got all the votes for United States senator. However, this probably will not lessen the agitation of the atmosphere in Kentucky during the next eighteen months.

A Hawesville young man, who bore an insane grudge against President Roosevelt, took a lithograph of the latter out to the barn and shot it full of holes. Czar Nicholas, no doubt, would be willing to furnish

Damages and Injunction Sought in Cross Petitions in Graves County.

GOOD WILL IS NOW IN ISSUE

Two doctors, each insisting that the law should prohibit the other from practicing within a radius of six miles of Dublin, Graves county, have instituted cross suits for damages and injunction in the Graves county circuit court.

Their names are Dr. J. C. Sullivan and Dr. W. H. Lester. The latter began suit several weeks ago for \$1,000 damages and an injunction, alleging that he had purchased Sullivan's practice and good will, with the agreement that Sullivan should not practice within six miles of Dublin.

Now Sullivan institutes suit for \$1,500, and an injunction, alleging that under an agreement by which he sold the Lester residence and farm near Dublin for \$3,000, Lester agreed to refrain from practicing within a radius of six miles of Dublin.

VOICE OF THE PEOPLE.

The Council and Bond Issue.

To the Editor of The Sun:

Can anyone tell why the morning paper, which poses as a paragon of all the virtues, persistently and consistently makes such statements as it does today in its record of the council proceedings, when it says the board ignored the mayor's suggestion that the question of issuing bonds for the purpose of building water works, and installing an electric lighting plant, for commercial purposes?

The lower board unanimously passed a resolution some weeks ago, putting the matter before the people and attention was brought to that fact during the meeting last night. Mention of it, however, would not serve the Register's purpose, so it proceeds to make the above misstatement.

DEATHS OF A DAY

Infant Dies.

The seven-months-old infant of Mr. William Grogan, of Mechanicsburg, died of fever yesterday and this morning was buried at Oak Grove.

Charles Hobson.

Charles Hobson, 50 years old, a retired farmer died this morning at 5 o'clock of dropsy at his home in Lodi. He had been living there a month. He was not attended by a physician and the coroner was summoned. Mr. Hobson is survived by his wife and several children. The funeral will take place tomorrow morning at 10:30 o'clock. The burial will be in Oak Grove cemetery.

Hot Days Beneficial.

It is strange we never stop to realize that the hot days are good for us. They are tho', just as they are good for crops. Nature sends the hot days to give us a good "sweating"—if the use of the vulgar word is permissible for in this way it eliminates some of the poisons from our systems. If we would get out of doors, instead of sitting in the shady nooks, and take two or three hours in the open air with the "boiling sun" bolling us right we would feel lots better, and be lots better.

This is a correct theory, and is the theory that prompted the invention of the hot-air treatments I am giving with such success in my practice. When used in connection with Osteopathy it is a specific for the ailments that give us Paducahans the most trouble, malaria, chills and fever and biliousness, and I can just a few minutes show anyone suffering from these ailments why they yield so readily to the treatment. I can refer you to people you know who will attest to my statements.

If you feel drowsy, and tired; feel like you had a tant band around your head which was being drawn closer all the time; if you are suffering from indigestion or any form, a course of Osteopathic and dry hot-air treatments will bring a quick cure, and do so without the aid of anything but aids to Nature.

A Secret

It aids nature a little, that's the only secret about it. We refer to Ayer's Hair Vigor. It feeds the hair, makes the scalp healthy. The hair stops falling out and dandruff disappears. The result could not be different, for it's the natural way. And it is a splendid dressing, keeping the hair soft and smooth. Why not save what hair you have and get more at the same time? J. C. Earth Fluctuates With the Tide on the Coast of San Francisco

San Francisco, Aug. 7.—If you live on the Pacific coast and know that the earth was as firm as to actually bend downward and seaward every time the tide came in, and then rise as the tide receded, would you be frightened? You wouldn't need to, according to Prof. A. O. Leuschner, director of the observatory of the University of California, who will furnish the scientific world with data upholding the above outlined condition. A new type of seismograph—the instrument that indicates and records earthquakes—which was placed in position at the observatory a month following the earthquake, resulted in the interesting discovery being made. "It was never known before that the weight of

"There is no cause for alarm. The fact that the weight of the water presses the land down does not mean the coast is without the proper support. It simply proves that the earth is elastic, which has always been known."

No Stockings! How Shocking! Just Wears Socks and Shocks Whole City

Atlantic City, Aug. 7.—Atlantic City ladies have had such a shock! For the fair summer girl she at least of the shapely legs—has taken to socks on the bathing beach and abandoned the conventional long stockings. This awful breach in the conventions was made by a girl from staid and prim Philadelphia. When she appeared yesterday in bare legs and attracted the attention of beach loungers, Peter Parker, captain of the life guards, hurried aghast to Mayor Stoy for instructions. But the mayor is a wise official and he knew better than to undertake to settle the all-important question of hose or half-hose; and where there was but one pair yesterday, today there were half a dozen pairs of stockingless calves twinkling along the sands, with a prospect of a general adoption of the new fad within a day or two, for "If the girls wish to wear socks I have no official objection," Mayor Stoy said this evening. "I have had enough of trouble in trying to regulate bathing rigs in former seasons, and so long as there is nothing positively indecent about the costumes there will be no objection." According to local haberdashers there has not yet arisen a strong demand for bathing socks, and it is believed that the daring pioneers of yesterday and today borrowed their brother's half-hose for the occasion.

BUTLER BARON

MAKES WIFE EARN LIVING FOR ROTH IN CHICAGO

Romance With German Nobleman Ends in Kitchen in Windy City for Texas Girl.

Chicago, August 7.—A suit for separate maintenance began by Floren von Geyso against her husband, Alexander von Geyso, in the superior court has brought out a story of alleged deceit practiced by a real German baron on the daughter of a Texas college professor.

Seth F. Crews, the woman's attorney, declares the baron promised his client a life in a fine home on the shore of Lake Michigan.

At the first meeting the baron spoke of his residence on Lake Michigan and gave and left his address at a number occupied by a Chicago millionaire, where the defendant was employed as butler.

Suspecting nothing irregular Miss Flora Richter kept up correspondence with the baron and finally left her home to become a baroness. She was met at the station by Von Geyso.

"I want to test your love" he said. "I am a servant in the house which you thought I owned, and am known there as Alexander Geyso."

The bride says she was compelled to take a position as chambermaid in the same family where her husband was employed, and that before a year had passed she found herself the breadwinner for both. She denies the baron used a revolver in his arguments.

Von Geyso, who actually is a baron, is the heir to a large German estate and the baroness is merely suing for separate maintenance.

In Police Court.

There were few interesting cases in police court this morning and Judge Puryear adjourned about 11 o'clock.

The case against Frank Blanchard, white, charged with stealing rope from the Ayer & Lord Tie company, was heard and it consumed the greatest portion of the time. He was held over to the action of the county judge.

Other cases: Illinois Central Railroad company, for blocking the street crossing, left open; Tully Livery company, for leaving wagon in the street, left open; Matt Miller, for permitting a gutter to remain obstructed, left open; T. C. Leech, breach of ordinance \$5 and costs; Dock Jackson, breach of the peace, \$25 and costs; Carrie Carter, colored, breach of ordinance, dismissed; Charley Bryant, colored, disorderly conduct, \$25 and costs; Arthur Broadlow, Sherman Guthrie, disorderly conduct, left open; Freeman Tolan, colored, breach of the peace, left open.

MALICIOUS

ASSAULT SAID TO HAVE BEEN MADE ON CRIPPLE.

The Warrant Sworn Out for Arrest of James Taylor by Patrolman Ferguson.

A warrant was issued this morning by Police Judge Ed H. Puryear for James Taylor on the charge of malicious assault with intent to kill, and he will be presented at the next session of police court.

Patrolman Scott Ferguson, of the Broadway beat, took out the warrant. He stated that Taylor was in a saloon near Second and Washington streets intoxicated. He attacked a one-legged negro boy named Arnold Holland. The boy was driven from the saloon and Taylor is alleged to have followed him into Iseman's wagon yard. It was stated by the policeman that Taylor had out his knife and was in the act of cutting the boy, when Charles Iseman struck Taylor with a stick, inflicting a serious wound.

Judge Puryear stated that he would issue the warrant against Taylor and take the evidence into consideration in the proceeding against Iseman.

People and Pleasant Events

Parties sending in accounts of social entertainments will please sign them, as The Sun will not publish communications sent in that are not signed.

Mrs. Marble Entertains.

Mrs. William Marble entertained at cards this morning in a charming manner at her home on Kentucky avenue. It was in honor of her sister, Mrs. Adaline Van Pelt, of Oakland, Cal., who is visiting her. There were four tables. The colors of green and gold were prettily carried out; the gold being for the guest of honor's native state. Immediately upon the conclusion of the game, the guests enjoyed a delightful luncheon. It was a pretty morning party and the house looked inviting with its decorations. Mrs. John K. Hendrick captured the prize.

For Visitor.

Miss Emma Reitz entertained delightfully last evening in honor of Miss Flora Rohr, of Evansville, who is visiting her. Miss Reitz was a charming hostess and those present had a happy evening. Those present were: Misses Inez Trent, Blanche Street; Miss Caldwell, of Louisville, and Messrs. Frank Donovan, Morton Hand, John Trent and the Messrs. Palmer.

Boating Party.

Yesterday afternoon a number of young people went to Brookport on the Bettie Owen. A delightful time was had by those in the party, who were: Misses Marie Roth, Audrey Taylor, Geraldine Wilson, Mary and Katherine Burkam and Little Thomas.

Swimming Party.

A swimming party was given by several young people of the city last evening at the park. After a pleasant dip in the water the party came to the city where a nice luncheon was enjoyed.

Lawn Party.

This evening Miss Blanche Street will entertain with a lawn party at her home on South Sixth street, complimentary to Miss Flora Rohr, who is the guest of Miss Emma Reitz. A pleasant time is anticipated.

Among those registered at The Palmer today are: W. B. Blackmon, Martin, Tenn.; J. A. Morgan, Louisville; C. M. Head, Chicago; G. W. Hurley, Keokuk, Iowa; J. W. Shotwell, Tullahoma, Tenn.; W. O. VICIOUS THIEVES

BREAK MACHINE

Not Content With Stealing Guns and Money.

They Literally Tear Typewriter to Pieces in Office of Iron Company.

POLICE LOOKING FOR THEM.

Thieves, not content with breaking into the junk shop of the Kentucky Iron & Steel company, Ninth and Harrison streets, and stealing a considerable amount of property and money, broke a typewriter all to pieces before leaving. The case was reported to the police this morning.

The robbers and vandals gained entrance through a rear window some time during the night. A great pile of junk is stored in the ware room, some of it valuable. They picked out a shotgun, a pistol and \$4 in cash. Then, apparently seized with frenzy, they attacked a typewriter in the office, which was in good condition, and literally smashed it to pieces with a heavy bar of iron or some instrument.

Descriptions of the weapons stolen have been given the police, who are searching for the thieves.

TON, Tex., are expected here Sunday to visit Mr. Dale's father, Col. Bud Dale, J. N. Itasor and wife, of Denton, will accompany the young couple here.

FINGER PRINTS USED IN ARMY

Best Method of Identification Yet Discovered.

Secretary Taft has organized a club of his "D. D. F." friends—Secret is out.

COMMON HOUSEFLY DANGEROUS

Washington, August 7.—With the introduction into the army of the finger-print identification system, Uncle Sam will have a unique method of identifying his fighting men, which the war department asserts is more reliable and practical than any now in existence. The French system of Bertillon, based upon a series of all possible measurements, has been tried in the past, but with not great success, and the war department is now substituting the method made popular by Mark Twain in "Puddin' Head Wilson." Briefly, the system consists of having every enlisted man place a print of his right thumb and first finger on a specially prepared gelatin-covered slide, on the back of which is pasted a slip giving his name, next of kin, weight and similar information, the slides to be filed at the war department. While the new process is to be put into general effect it seems probable, however, that it will be tried only on the new "rookies," as the recruits are called, for a protest loud and long has risen from the men already enlisted against being forced to have anything to do with a little dinky piece of glass as though each were a probable deserter. That the system will be of great value there is no doubt. Nominally, it is being introduced in order to do away with the "unknown" soldiers' graves in the future. In the case of a corpse which cannot be otherwise identified, it will be only necessary to take a print of the fingers before burial to be compared with the original at the war department. As a matter of fact, however, the new system will protect the government from frauds in pension cases since no one enlisting under an assumed name can afterward claim in his own name a pension and hope to escape detection. Deserters, too, will find it harder than ever to escape the long arm of Uncle Sam, since in the future finger print plates will be supplied to all recruiting officers.

D. D. F. Club.

Secretary Taft is rumored here, has started a D. D. F. club with himself as all the officers and the committee on membership. To those who have received from him a letter beginning "D. D. F." in place of the conventional "My dear Mr. Jones," the matter is no secret; those who haven't received such a communication evidently have not written him urging him to follow the advice of the president to put aside the proffered seat in the supreme court, and instead stay his career in the presidential arena in 1908. Likewise, those who have made bold to urge this course of action on the secretary, orally understand, when they have received from him the reply, accompanied by a Brobdingnagian chuckle, "I see I'll have to put you on my 'D. D. F.' list." Mr. Taft will not at first inform one as to the meaning of these cabalistic letters but after one has pondered for a while he will merely explain that they stand for "Dear Damn Fool Friend." That's as far as he will go at present, but it ought to bring relief to others in whose heads the presidential bee is buzzing.

House Fly Dangerous.

The man who resignedly endeavored to discover the purpose and usefulness of "bugs" will only be placed in a still more mixing situation if he reads the dicta of the government's medics. The unpopular mosquito has been proven to be the conveyor of yellow fever, and now comes the report to the bureau of insular affairs from the Philippines that cholera in those islands is to be laid at the door of the sleep-disrupting but hitherto otherwise unoffensive house-fly. Beside carrying on a more or less active internal war, the government is now forced to take up arms against the dangerous fly, and orders have accordingly been issued which when carried out will make his life about as unhappy as that of the unreconstructed Filipino. Some skeptics however, have made themselves unpopular by allowing that the flies and the Filipinos will be subdued at about the same time—that is, when they are dead.

OLIE ON HIS WAY ACROSS THE DEEP

Kentucky Democracy Watching for Signal From Him.

Many in First District Stand Ready to Take His Place in Halls of Congress.

HOW DOES GOVERNOR STAND?

Olie James is coming home this week and Kentucky Democracy has its glass skimming the horizon of the "bribe" for the big man of the First district. Also several First district statesmen in the embryo are bending ears to the ground to catch the first rumblings of a decided movement in any direction in the event—O, happy dream—that Olie James decides to give up congress and run for governor.

The days go by the situation centers more surely around the imposing figure of the tall statesman from west Kentucky, and every day some new politician is won over to the belief that James is the logical candidate for governor. This expression of opinion is usually accompanied with a doubt as to his intention, and a query as to the attitude of Governor Beckham.

The Louisville papers persistently assert that Governor Beckham will insist on James running, because of the split between Hager and Percy Italy; but from Frankfort comes no intimation of the executive bent of mind, and the nucleus ones are left guessing.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by Lang Bros.

THREE FACTS

For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-two years under her direction and since her decease she has been aiding sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

ANOTHER COMPANY WILL GO ON BONDS

Policemen Will Not be Deprived of Security.

All Violators of Liquor Law "Look Alike" to Mayor Yelser, He Says.

FRIDAY IS PAY-DAY OF CITY

Another company has agreed to furnish bonds for Paducah policemen in the event the surety company secures its release, and a rate only slightly in advance of that in effect is asked.

Mayor Yelser and City Solicitor Campbell have the matter now under advisement. By ordinance policemen must give bond for the faithful discharge of their duty, but recent suits against policemen and their bondsmen by persons arrested in Paducah, have put the bonding company to some expense and its officers have decided the expense is greater than the income. Consequently, the local agent has asked the release of his company, and the matter has been referred to Mayor Yelser.

It was feared that serious complications might result from the withdrawal of the bonding company. It is not likely that policemen could get security on account of the risk they constantly undergo, and as the city requires a bond, the force would be in a sad plight. But the offer of the new company seems to afford a loophole to avoid the complication.

Druggists' License.

"They all look alike to me," was the answer Mayor Yelser gave when questioned as to his probable action in regard to the liquor licenses of druggists. He said he is not yet fully advised as to his authority to revoke a druggist's license, but if he has the authority he will show a druggist, who violates the law, no more consideration than he would a saloon-keeper. The druggists recently fined in police court will appeal the cases, which will hold up the mayor's hand for some time.

Friday Is Pay-Day.

Friday is pay-day at the city hall. Over \$25,000 in claims were allowed by the board of aldermen last night, and Thursday the aldermen will pass on them. Some \$15,000 of this amount is included in the school fund, the street estimates and sinking fund.

What the Best Beer is Made of.

Process of Making American Beer is the Standard of Excellence.

In the brewing of beer, as in the manufacture of other products, there is a standard of excellence. This standard is the Pabst exclusive process, and the recognized superior of all beers, in cleanliness, purity, food value and refreshing, satisfying taste, is Pabst Blue Ribbon Beer.

It may be true that some breweries cheapen the cost of production and thereby lower the quality of their product, by use of inferior ingredients, but Pabst Blue Ribbon Beer is brewed from the purest, best ingredients that money can buy or produce, the ingredients which are essential to the production of the best beer. These ingredients are the choicest imported hops, pure water and Pabst exclusive eight-day malt, grown from the finest selected barley by the Pabst exclusive method of slow growth.

Malt grown by the rushed four-day method, the usual method in breweries, is inferior malt because in the unnatural development of the barley the vital food elements are thrown off and lost. "Pabst," as one eminent scientist has said, "retains all the nourishment of the grain in his exclusive eight-day process of making malt and therefore Pabst Blue Ribbon Beer is the richest as well as the cleanest beer in the world."

Knowing these things to be true we can recommend Pabst Blue Ribbon Beer as the cleanest, purest, most satisfying and most healthful beer brewed—the beer that should be kept in the home.

My tests for this month show very satisfactory results, in that all the dealers, milk is up to the standard, and some above.

I find conditions generally are gradually improving, and the dairymen studying conditions more, and giving the questions of handling milk properly and in a sanitary manner, more thought and care, and improving the selection and breed of cows, their health, housing, food and water, all of which tends to make their offerings of better quality.

All of which is respectfully submitted.
